DEVELOPMENT TRUST

Those of you that live in Kirkstall (and very possibly Armley and Bramley) may not be aware that the footpaths are at risk. Many of them are not registered and by 2026 you may well find what you consider to be rights of way are blocked! We need to come together to ensure that all our rights of way are properly registered.

This group is a chance for you to find out more, ask questions and get involved in saving the footpaths.
